CAREER OBJECTIVE

Artificial Intelligence and Data Science professional with hands-on experience in data analysis, Python development, and full-stack fundamentals. Proficient in extracting insights from complex datasets, building data-driven solutions, and developing efficient, scalable applications. Strong analytical mindset with expertise in Python, SQL, data visualization, and problem-solving. Seeking an entry-level professional role to contribute technical expertise and deliver measurable business value.

PROJECT

1.Expense Tracker– Designed and implemented a system to manage daily expenses with full CRUD functionality. Integrated data visualization to monitor spending trends and financial patterns. **Technologies:** Python, GUI Development, Data Storage, Visualization

2.Currency Converter– Built a real-time currency conversion application using external APIs. Implemented efficient data handling for live rate updates and user inputs. **Technologies:** Python, API Integration, Real-Time Data Processing

3.Restaurant Data Analysis –Conducted exploratory data analysis on restaurant datasets to uncover insights. Performed preprocessing, visualization, and analytical reporting. Technologies: Python, Pandas, Data Visualization

WORK EXPERIENCE

Python Intern – RISE 3.0 (Virtual Internship)

01-Dec-2025 to 31-Dec-2025

Developed and optimized Python programs using core concepts such as functions, loops, data structures, and file handling. Applied logical problem-solving and algorithmic thinking to implement efficient and reusable code. Debugged, tested, and improved Python scripts, strengthening computational and analytical skills

Data Analyst Intern – Cognifyz Technologies (Virtual Internship)

Dec 2025 - Jan 2026

Analyzed structured datasets using Pandas and NumPy to extract actionable insights. Built data visualizations using Matplotlib and Seaborn to identify trends and patterns. Performed data cleaning, preprocessing, and basic statistical analysis to support data driven decisions

EDUCATION

Pursuing Bachelor of Artificial Intelligence and Data Science

2024 - 2028

Agni college of Technology

CGPA : 8.45

HSC

2023 - 2024

Sadhguru Global Matriculation HR Sec School

Percentage : 81%

SSLC

2021 - 2022

Sadhguru Global Matriculation HR Sec School

Percentage : 85%

TECHNICAL HIGHLIGHTS

- **Languages:** English ,Tamil
- **Certifications:** Diploma In Programming Language, Post Graduate Diploma In Computer Application
- **Technical Skills:** Python, C, C++,HTML,CSS,Javascript,Node.js,Express.js, Pandas, NumPy, SQL, Excel, Power BI
- **ACHIEVEMENTS:** Completed real-world data analysis projects, Developed Python-based applications, Strong analytical and problem-solving skills, Quick learner with consistent performance
