## EXECUTIVE SUMMARY

---

Aspiring Data Analyst and Business Intelligence professional with hands-on experience in Data Analysis, SQL, Python, Power BI, Machine Learning, and Data Visualization. Skilled in building ETL pipelines, developing dashboards, performing predictive analytics, and transforming complex datasets into actionable insights. Strong analytical mindset with internship experience and real-world projects, seeking an entry-level Data Analyst, Business Analyst, or BI role.

## TECHNICAL SKILLS

---

**Programming:** Python, SQL, C, C++, JavaScript, HTML, CSS

**Data Analytics & BI:** Power BI, Excel, ETL, Data Visualization, Dashboard Development, KPI Reporting, EDA

**Machine Learning:** Scikit-learn, Random Forest, Predictive Analytics, Regression & Classification Models, Feature Engineering

**Libraries:** Pandas, NumPy, Matplotlib, Seaborn, Flask

**Databases & Tools:** MySQL, Firebase, Git, VS Code, Jupyter Notebook

## SOFT SKILLS

---

Communication & Teamwork, Problem Solving, Analytical & Critical Thinking, Time Management, Adaptability, Quick Learning, Attention to Detail

## PROFESSIONAL EXPERIENCE

---

### SyntacxHub

May 2026 – June 2026

*Role: Data Analyst Intern*

- Analyzed and cleaned business datasets using Excel, SQL, and Python; built interactive Power BI dashboards to monitor KPIs and business performance.
- Performed EDA to identify business trends, automated reporting workflows, and used SQL for efficient data extraction.
- Validated datasets for accuracy and collaborated on dashboard enhancements, improving reporting efficiency and decision-making.

### Cognifyz Technologies

Dec 2025 – Jan 2026

*Role: Data Analyst Intern*

- Analyzed structured datasets using Pandas and NumPy; performed data cleaning, preprocessing, and EDA to identify patterns and trends.
- Built visualizations using Matplotlib and Seaborn, applied statistical techniques, and documented findings to support decision-making.
- Delivered data-driven insights and improved dataset quality and reporting capabilities through preprocessing techniques.

### RISE 3.0

Dec 2025

*Role: Python Intern (Virtual Internship)*

- Developed Python programs using functions, loops, and data structures; applied algorithmic problem-solving and file handling.
- Debugged, tested, and optimized applications for performance, strengthening computational thinking and software development fundamentals.

## ACADEMIC PROJECTS

---

### End-to-End Business Intelligence System | Excel, SQL, Python, Power BI, Firebase/MySQL

- Built ETL pipelines using Python and SQL to extract, transform, and load data into a centralized reporting environment.
- Designed interactive Power BI dashboards for KPI monitoring, analyzing revenue, sales, and customer growth trends.
- Automated business reporting, enabling faster decision-making and identifying growth opportunities and bottlenecks.

### Sales Forecasting using Machine Learning & Power BI | Python, Pandas, Scikit-learn, Random Forest, Power BI, SQL

- Developed ML models to predict sales performance; performed preprocessing, feature engineering, and EDA on historical sales data.
- Trained and evaluated forecasting models using MAE and RMSE metrics, and built Power BI dashboards to visualize forecasted trends.
- Improved forecasting accuracy, supporting inventory planning and data-driven growth recommendations.

### Customer Churn Prediction using Random Forest | Python, Scikit-learn, Pandas, NumPy, Flask, Firebase/MySQL

- Developed a churn prediction system using Random Forest classification with data cleaning, preprocessing, and feature selection.

- Built a Flask-based dashboard for prediction and analysis, identifying factors influencing customer attrition.
- Enabled early identification of at-risk customers, supporting retention strategies and customer relationship management.

## EDUCATION

---

**Bachelor of Artificial Intelligence and Data Science — Agni College of Technology** *2024 – 2028*

CGPA: 8.45

**Higher Secondary Certificate (HSC) — Sadhguru Global Matriculation HR Sec School** *2023 – 2024*

Percentage: 81%

**Secondary School Leaving Certificate (SSLC) — Sadhguru Global Matriculation HR Sec School** *2021 – 2022*

Percentage: 85%

## AWARDS & ACCOMPLISHMENTS

---

- Diploma in Programming Language; Post Graduate Diploma in Computer Application.
- Completed multiple end-to-end Data Analytics and BI projects with interactive Power BI dashboards for KPI monitoring.
- Built machine learning solutions for forecasting and customer analytics; fluent in English and Tamil.
